Are you looking for a good educational reference to learn about tree and shrub management? Try a bound collection of the 2006 season of the *Branching Out* newsletter. Review what happened during the season and learn how to identify and treat a wide array of insect and disease problems on trees and shrubs.

**Bound Sets Available from the 2006 Season**
- Collection of the 11 issues published from April through September 2006.
- Each bound set comes with a laminated color cover.
- Review information on all aspects of insect, mite, and disease management for the northeast United States, with emphasis on New York State.
- Improve your diagnostic skills.
- In 2006 our feature articles highlighted the following topics:
  - Cornell Woody Ornamentals Entomology Update
  - EyeCatching Late Season Insects
  - Honeylocust Pests: Plant Bugs and Beyond
  - Insect Traps
  - July’s Weed of the Month: Veronica Speedwell
  - Magnolia Scale & Tuliptree Scale
  - Notes from the Front Lines: Professional Meetings & Professorial Thoughts
  - Walnut Allelopathy
  - Watch for Early Spring Defoliators
  - What’s Happened to Sudden Oak Death?

**Description**
- Faculty and staff in Cornell’s Department of Plant Pathology, in cooperation with Cornell Cooperative Extension educators, developed this IPM newsletter.
- Pest information was gathered throughout the growing season via on-site scouting at selected locations from Long Island to Rochester. This information, together with tips from professional and trade literature, was used to prepare up-to-date articles of interest to you.

**Contents**
Scouting Report, Growing Degree Days, Phenology, Meeting Memo, Bookshelf, Your Questions, and an in-depth Feature Article

Need a preview? Visit our web site at: [http://Branching Out.cornell.edu](http://Branching Out.cornell.edu)

**Cost and Ordering**
The cost of the 2006 bound set of *Branching Out* is $20. Send the completed order form, together with your check or money order payable to Cornell University, to:

*Branching Out*, Department of Plant Pathology, Cornell University, 334 Plant Science Building, Ithaca, NY 14853
